Laminate

Laminate

The floor of your home is the foundation of your interior style.

The sleek, contemporary design of Godfrey Hirst Laminate floors offer an affordable and durable flooring option.

Manufactured in Germany, Godfrey Hirst Laminate floors are of the highest quality with an accurate representation of timber.

Available in a variety of striking designs and colours, Vue, Belle and Mondo ranges are bursting with character and will accentuate the beauty of any home.

Godfrey Hirst Laminate flooring can be used in a variety of spaces, thanks to a durable surface coating that protects against residential and commercial wear.

Laminate floors are perfect for
low maintenance living

Belle Aspen Ash - Whitewash
Cover: Mondo Lodge Pine - Old Grey

When only the best will do

Vue is a premium laminate floor that creates a sense of luxury in any interior space. The embossed in register grain (see page 19) reflects the warmth and richness of timber along with subtle micro bevelled edges and matte finish.

Vue is a durable laminate floor with long, wide, 12mm thick boards that provide a solid sound and feel underfoot.

As beautiful and natural as timber

Belle Laminate flooring captures the natural beauty of timber. The embossed in register grain, matte finish and carefully milled micro bevelled edge break up the surface for an authentic look.

For the ultimate in style, select an extra wide board[^] with seamless ends and a continuous finish (see page 19).

Cost effective and durable,
Mondo exudes quality and character

*An embossed in register
surface means your floor has
an authentic timber appearance*

Express your individuality

Offering a unique variety of grain patterns and hues,
Mondo is the perfect floor for your interior design.

Mondo is a stylish laminate that makes a flooring fashion statement, with a distinctive natural grain that gives an authentic timber appearance.

Traditional square edges create a sleek contemporary finish to a floor that will endure busy household foot traffic.

LOW MAINTENANCE

Construction

Godfrey Hirst Laminate has four key layers for durability and quality.

1. Aluminium oxide overlay for abrasion resistance rated from AC4 to AC5.
2. Decorative layer for an accurate representation of timber.
3. An HDF (High Density Fibreboard) core.
4. A balancing layer on the underside of the core to preserve structural stability.

Long side

Short side

5G Insta Clic™

Godfrey Hirst Vue, Belle and Mondo ranges all feature the 5G Insta Clic™ system, which allows for fast and simple DIY installation.

In one single action, the boards snap and lock together with great strength and stability.

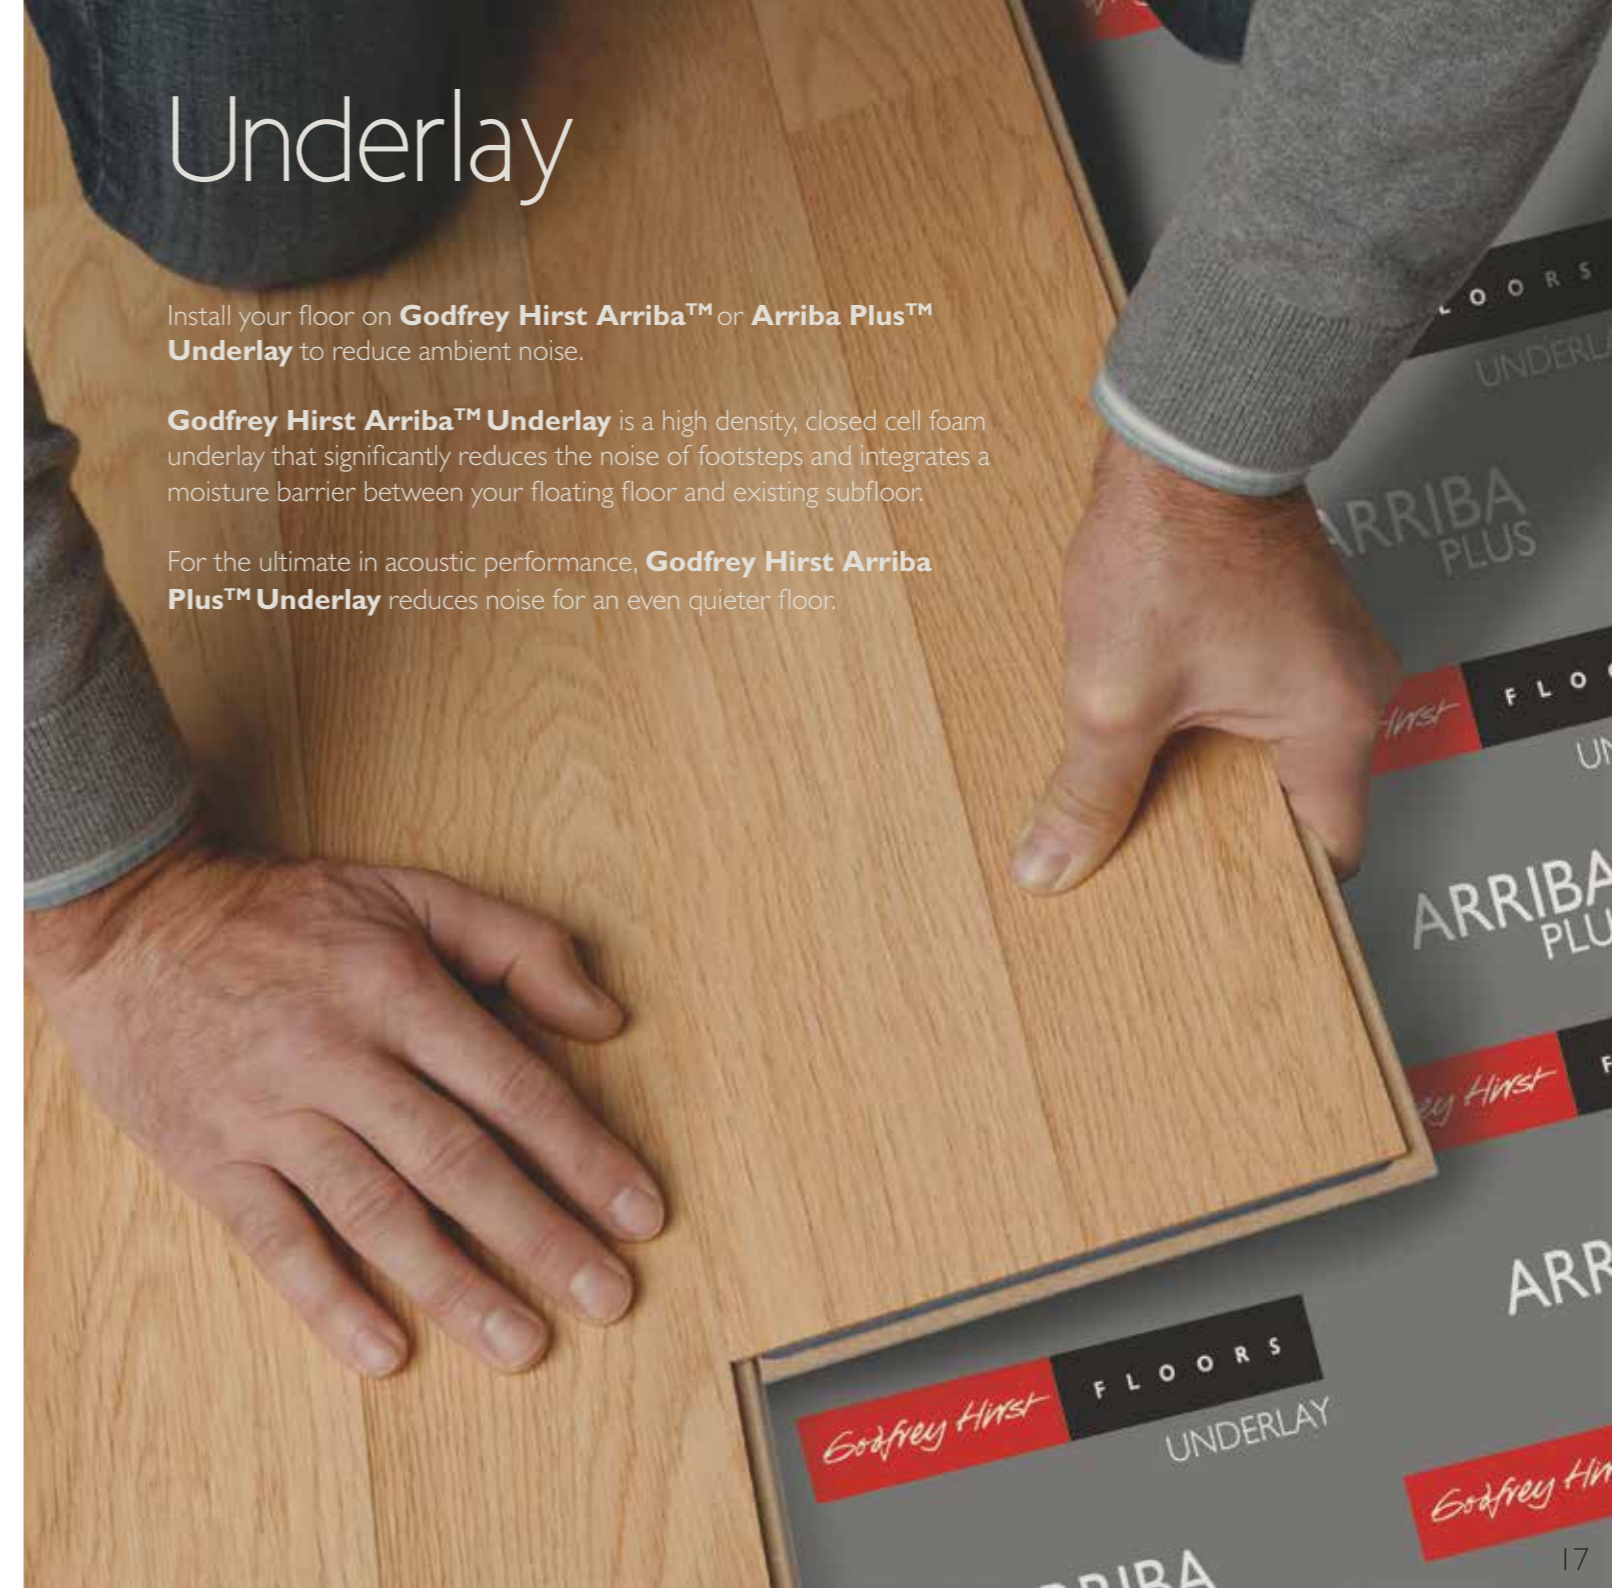

No glue or nails are required and you can install and walk on your floor the same day.

Underlay

Install your floor on **Godfrey Hirst Arriba™** or **Arriba Plus™ Underlay** to reduce ambient noise.

Godfrey Hirst Arriba™ Underlay is a high density, closed cell foam underlay that significantly reduces the noise of footsteps and integrates a moisture barrier between your floating floor and existing subfloor.

For the ultimate in acoustic performance, **Godfrey Hirst Arriba Plus™ Underlay** reduces noise for an even quieter floor.

Product Features

The select features of Godfrey Hirst Laminate Floors are explained below. Look for these various feature icons on product samples in store and online:

Square edge boards sit level for a sleek and seamless floor.

Micro bevel edges create a small V-shape between each board for an authentic look.

Boards with a **matte finish** reflect the natural look and feel of timber.

Low maintenance and easy to clean. Vacuums easily and marks can be removed with just a soft, damp cloth.

Embossed in register is the textured embossing on the surface, which follows the grain to provide a dramatic level of realism.

Seamless ends are available on our selected wide boards where the patterned grain matches at the short end of each board.

Embossed in register

Seamless ends

Godfrey Hirst Laminate floors can be installed over most existing subfloors, including concrete, ceramic and wood.

Scratch resistant to
keep your floor
looking great

Vue, Belle and Mondo make a
bold statement in commercial spaces

Belle Alpine Oak - Smokey Grey

Ratings

ABRASION RATINGS

The abrasion ratings of Laminate floors range from AC1 (bedroom) - AC5 (public buildings). Godfrey Hirst Vue, Belle and Mondo laminate floors achieve an abrasion resistance rating of AC4 or higher.

CLASS RATINGS

Residential, moderate traffic.
Suitable for bedrooms or
guest rooms

Commercial, moderate traffic.
Suitable for hotel rooms or
small office.

Residential, general traffic.
Suitable for living rooms or
dining rooms.

Commercial, general traffic.
Suitable for office, boutiques
or cafés.

Residential, heavy traffic.
Suitable for all areas.

Commercial, heavy traffic.
Suitable for public buildings or
department stores.

The class rating represents impact and stain resistance as well as the effects of furniture legs, castors, and other performance indicators. It is divided into Residential (house icon) and Commercial (building icon). If the product is commercially rated, it will perform even better in your residential home!

A two digit numerical is also shown within each icon where;
The first digit indicates the rating: 2 for Residential or 3 for Commercial.
The second digit indicates the traffic intensity level: 1 for moderate, 2 for general or 3 for heavy.

*Clean up is
a breeze with
Godfrey Hirst
laminate floors*

Performance

All Godfrey Hirst laminate floors are made in Germany and have wear, fade and stain resistance to keep their beautiful finish in both residential and commercial applications.

Wear Resistant
Protected from wear to keep it looking beautiful.

Fade Resistant
Protected from fading from UV sunlight.

Stain Resistant
Protected from staining.
