AND OPERATED

# EMBELTON

SINCE 1925

## 90 Years on – Going from strength to strength

In February 1925, George P. Embelton established a business in Melbourne importing a range of building materials, which soon grew to include cork floor tiles from Portugal.

50 years later, Australian timber flooring was embraced. Embelton's comprehensive product portfolio now includes timber, laminate, bamboo and parquetry - distributed from six warehouses across Australia's major capital cities.

With the Embelton family still directly involved in management, the company retains its long-standing values of quality, service and innovation as the core focus in all that it does.

# Our Engineered Timber Collection

For stunning high quality timbers, Embelton engineered timber floors are the natural choice.

From the rich reds and sun-filled blondes of our G5 Australian Species & Eco-Walk ranges, to the gorgeous grains and refined style of our G5 Luxury Oak, you're sure to find a board size and colour option to provide the perfect pairing to your interior.

Embelton timber floorboards are precision-engineered to create the ideal combination of visual beauty and optimum performance. Constructed using cutting edge locking profiles, installation is simple with no need for nails or glue, allowing boards to be walked on as soon as they are laid.

Embelton timber floors are finished with the finest in scratch and stain resistant coatings, and are backed by our 25 year domestic and 10 year commercial warranties.

## G5 Australian Species \$\$\$\$

For those seeking the best in timber flooring, our G5 Australian Species collection offers elegant timbers in a classic flooring design.

Carefully hand-selected for their individual character and beauty, our G5 Australian timbers offer the highest in flooring quality and performance. Features a stunning gloss finish, re-coatable top layer, and the revolutionary G5 locking system.

## G5 Luxury Oak \$\$\$\$

Our most refined timber flooring range, G5 Luxury Oak offers an exquisite collection of oak that will create the most stunning interior.

Utilising the finest grade of European Oak, and wirebrushed to enhance the natural Oak grain, this range is crafted to impress.

## Eco-Walk \$\$\$\$

The most affordable timber flooring product on the market, our Eco-Walk range provides a sustainable & cost-effective hardwood flooring solution.

And with our unique 13 layer coating system, there is no compromise on quality, visual beauty or performance.

# G5 Australian Species

For the highest quality in engineered timber flooring, look no further than our classic G5 Australian Species Collection

# G5 Australian Species

Create an elegant & contemporary interior with the rich colours and individual splendour of our G5 Australian Species collection. From the splendid variation of Spotted Gum, to the sun filled blondes of Blackbutt and Tasmanian Oak, our premium quality timbers are carefully selected to ensure your floor will be a showpiece for years to come. A gloss finish and square edge profile create a sleek, timeless look that brings out the unique character of each board.

Quality is assured with our revolutionary G5 locking system, creating unrivalled stability and performance, with no squeaking or gaps. World class German coatings from Klumpp give you peace of mind that your floor will be protected for years to come, and, should you want to re-finish your floor in the future, the boards can be lightly sanded and re-coated to restore their original glory.

# G5 Luxury Oak

The G5 Luxury Oak range is a sophisticated collection of timber, popular with designers and architects for its subtle, yet refined appeal.

# G5 Luxury Oak

Embelton has created a stunning oak colour palette in both classic and contemporary tones. A micro-bevel & wirebrushed textured finish showcase the classic grain & texture for which oak is renowned, and combine perfectly with a wideboard format to create a luxurious & timeless range of flooring.

Sustainably sourced from certified forests, only the best timber is selected for our Luxury Oak collection, providing just the right amount of natural feature and grain complexity to complement any interior. And unlike other Oak timbers, our range only contains 1 to 2 short lengths ("nested lengths") per pack, making for a simpler installation, with less wastage, and a more pleasing overall aesthetic.

Our revolutionary G5 locking system is the best of its kind, offering easy installation, and unrivalled stability and performance, with no squeaking or gaps. Requiring little maintenance, G5 Luxury Oak is finished with 7 layers of UV acrylic coating, ensuring your beautiful floor will be protected for years to come.

# *Eco-Walk*

Enjoy the quality and beauty of Australian timber at a price that won't break the bank

# Eco-Walk

The most affordable Australian timber flooring product on the market, Eco-Walk has been designed to provide a flooring solution that is cost effective, sustainable & tough.

Choose from our wide range of beautiful Australian timbers, renowned for both their character and richness of colour. 13 layers of UV acrylic coating provide extra stain & scratch resistance, prolonging the beauty of the timber, while the satin finish & micro-bevel subtly enhances the unique & sought-after character of each floorboard. And because we use only a thin veneer of timber that has full Chain of Custody from certified forests, you can feel good knowing your floor uses less precious natural resources.

Designed with Australian living in mind, Eco-Walk flooring is easy to clean and maintain. And with our simple “install and walk” assembly, Eco-Walk is ready to walk on as soon as it is installed, while the 4 sided locking system ensures boards fit tightly together, ensuring greater stability and preventing gaps between boards.

# Our Timber Features Explained

## Finish

### Gloss finish

Gloss coating for a smooth shine.

### Textured matte finish

Enhances the full character, grain and texture of the timber.

### Semi-Gloss Finish

A semi-gloss finish that has a smooth, subtle shine.

## Edge

### Micro-bevel

A small v-shape edge between each board outlines & defines each board for a more classic look.

### Square edge

Boards are fully flush against each other to create a sleek & seamless look.

## Environment

### Sustainable product

Sustainably sourced timber from certified forests.

## Construction

### Re-coatable Top Layer

Top layer can be sanded and re-coated to restore its original appearance.

### Hardwood micro-veneer

A micro-veneer is a thin layer of high quality, real timber on the surface of the board.

### Dimensionally stable core

Made from top quality plantation timber for maximum board core strength and stability.

### Extra protection

13 coats give extra scratch & stain resistance to the micro-veneer.

### Scratch & Stain Resistant Coatings

Top-quality, long-lasting coatings give maximum protection against everyday life.

### Wideboards

Wider boards create a more expansive look. Excellent for larger spaces.

## Care and Maintenance

Caring for your timber floor is easy. Follow these simple steps to achieve many years of enjoyment from your floor:

- Vacuum or sweep the floor to remove dirt and debris.
- Use a slightly damp (but not wet) mop for regular cleaning. Ensure no excess moisture remains on the floor after cleaning. Steam mops are not to be used.
- Promptly clean up spills to ensure no moisture is absorbed by the floor.
- For preventative care, entrance mats and rugs in high use areas should be considered, together with felt protectors for furniture and appliances.
- Maintain relative humidity levels in the environment (between 30% and 70%) to ensure boards retain optimum moisture content, preventing shrinkage or expansion.

# Underlays & Accessories

## ImpactaMat Rubber Acoustic Underlay

High performing acoustic underlay made from recycled rubber. Can be glued down or loose laid underneath floating floors, tiles, carpets, and concrete screeds.

[Use this underlay...](#)

- when you want to achieve the best possible acoustic performance
- if you need an acoustic rating that comes in well under the BCA-minimum
- when you want to glue down (rather than float) a floating timber floor over your underlay
- underneath tiles, carpet, solid timber and parquetry.

## Hush Platinum Foam Underlay

High density closed cell 2mm foam underlay with moisture barrier. For use under floating floors, Hush Platinum is BCA-compliant, and easy to install. Comes with integrated peel and stick design for continuous damp proof sheeting.

[Use this underlay...](#)

- to achieve BCA requirements for sound insulation for floors between dwellings
- when some moisture protection is required
- to achieve satisfactory noise insulation performance.

## Hush Gold Rubber Combination Underlay (WA only)

Heavy and high density rubber underlay with gold moisture resistant lining. For use under floating floors and carpets.

[Use this underlay...](#)

- to achieve BCA requirements for sound insulation for floors between dwellings
- when some moisture protection is required
- underneath carpet
- to achieve satisfactory noise insulation performance.

## Embelton Flooring Accessories - Finish your floor in style!

### Aluminium Trims

Senior / Junior End Trims

- 2 sizes, 8mm, 15mm
- 2.7m length
- Colours: Champagne, Silver, Bronze.

### Laminate Scotia

- 18 x 18 x 240mm
- Multiple colours available to match all Embelton timber floating floors.

Z Profile - Ramp, Transition, Motion Profile

- 2700 x 40 x 15mm
- Colours: Silver, Champagne, Natural, Coffee, Blackbutt, Walnut
- Flexi-fit from 15mm to 8mm
- Powder coated.

### Engineered Timber Mouldings

- Multiple colours available to match all Embelton timber floating floors. Spec 2400 x 19 x 19mm
- Raw Tasmanian Oak: 3000 x 12 x 19mm.
