

QUICK-STEP®

Timber

2015 - 2016

DISCOVER A WORLD YOU'D LOVE TO LIVE IN

DISCOVER OUR PASSION FOR WOOD

At Quick-Step, we must admit that we're perfectionists. Perfectionists when it comes to design, and passionate when it comes to details. Which is why we work at getting it right day and night.

Everything starts with the wood itself. We're fascinated by the structure, the touch and the smell - we lose ourselves deep into its grain, knots and lines. But most of all, we're passionate about the craftsmanship and design that allow us to create a contemporary engineered wooden floor out of the most noble of nature's raw materials.

In designing our floors, we keep a constant eye on interior design and fashion trends. We visit the hippest cities, read the latest blogs and keep up-to-date with the latest fashion colour ranges. That's how we spot a trend, even long before it becomes one. And it's also how we manage to tell the difference between hype and timeless design.

When we start working on the creation of our elegantly composed wooden floors, we aim for the perfect balance between the type of wood, the grading, colour, structure, finishing and plank size. Our Variano product, for example, is made of a variety of planks of different lengths, widths and finishes, all combined to make a beautiful and eye-catching floor with a distinct reclaimed look.

By combining the artisan characteristics of our wood with the latest design and production technology we succeed in making Timber floors that are truly unique. At Quick-Step, we don't just make the most beautiful floors, we also aim to create the most efficient ones. Some of our new floors, for instance, feature extra matt lacquer, which means you can have an authentic untreated look and at the same time enjoy the advantages of a lacquered floor.

**This is how we realise our dreams.
With Timber floors that are not only trendy
today, but will also be a classic tomorrow.**

THE PERFECT FLOOR DESIGNED FOR YOUR INTERIOR

► CUTTING-EDGE DESIGN AND TECHNOLOGY

Quick-Step's design team follows the latest trends in fashion, architecture and interior design passionately to offer you a range of floors that are visually stunning and technologically advanced. Giving you the perfect interior today, and for years to come.

► THE DESIGN IS IN THE DETAIL

In order to reinforce the character of our engineered wooden floors, we strive for the perfect balance - paying attention to the smallest detail - between the nature of the real wood, the craftsmanship of structures, and the high-quality finishes. Thus providing you with a variety of authentic wooden floors.

► A TOTAL SOLUTION

At Quick-Step we don't just offer a product, we offer a total solution. From floors and stair solutions, underlays, profiles and accessories, Quick-Step's range of products guarantees a perfect result every time.

A LIFETIME OF PLEASURE

► SUPERIOR STAIN AND SCRATCH RESISTANCE

Enjoy your beautiful, natural floor for many years to come. Our factory-applied oiled and lacquered finishes mean our wooden floors are highly wear, stain and scratch resistant. Manufactured to the highest standards in Europe, laboratory tests reveals that S.R.T. coating shows a 30 fold improvement in the prevention of the fine scratching over standard coatings.

► REAL WARRANTIES

Any company can offer a lifetime warranty, but more often than not, the warranty support is found to be lacking. Quick-Step doesn't just talk about giving a lifetime warranty, we are there when you need us. With qualified representatives all over Australia, Quick-Step offers full ground support no matter where you live.

► ENJOY IMMEDIATELY

Unlike other wooden floors, there's no post-installation work to do with your Quick-Step Timber floor. Which means no sanding, no dust, and no varnishing, oiling or painting at all. As soon as your Quick-Step Timber floor is installed, you'll be able to enjoy and use it immediately and for a lifetime!

► 100% NATURAL

The Quick-Step Timber range of engineered wooden floors is 100% natural, consisting of 3 layers of stable, hard and durable wood. This makes our floors much more stable than solid wooden floors. See page 29.

EASY INSTALLATION

Installing a Quick-Step floor is a breeze thanks to the patented world-famous Uniclic® Multifit click system. This system is highly user-friendly, quicker to install and a lot more solid than other systems. The Uniclic® Multifit click system makes installing easy, whether you choose for a glued down or floating installation.

► EFFORTLESS INSTALLATION, THANKS TO THE UNICLIC® MULTIFIT CLICK SYSTEM

Quick-Step is the inventor of the Uniclic® Multifit installation system, today the standard click-to-install system. Use this revolutionary and

patented click system to effortlessly click your floor planks together.

► INSTALL YOUR FLOOR ANYWHERE, EVEN ON FLOOR HEATING

Quick-Step Timber floors are perfect for installing over floor heating when combined with the right underlay. Find out more about the range of Quick-Step underlays on page 34.

► WATCH THE VIDEOS

See for yourself how easy it is to install a Quick-Step floor in our installation videos. Discover them on www.quick-step.com.au

A HEART FOR NATURE

Wood is the only renewable source material for floor coverings and for many years Quick-Step has gone the extra mile to limit the environmental impact of its activities. All the wood used to manufacture our engineered wooden floors is sourced from sustainably managed forests.

Moreover, our glue, lacquer and oil meet the strictest international emission norms and we only work with efficient and durable production processes.

All of this means you can simply enjoy your wooden floor knowing it was made with respect for the environment.

BE INSPIRED! FIND YOUR OWN STYLE

COUNTRY 18-21

CLASSIC 22-23

MODERN

Less is more. Make a design statement with a modern style, created with a minimalist look in mind. Clean shapes and lines and clear or white finishes create the perfect basis for a sharp, modern interior.

FOSSIL OAK MATT | PALAZZO | PAL 1342

First impressions count and with the Fossil Oak Matt, its distinctive look and natural highlights ooze uniqueness.

PAINTED WHITE OAK OILED | VARIANO | VAR1629

Combined with the white paint, the wood grain is subtly exposed and as a result produces an authentic reclaimed and romantic feel.

CHIC

If you're looking for a contemporary style, choose interior elements that offer a comfortable, durable and balanced look. These contemporary designs create a feeling of space and openness in your home. Use mainly neutral colours, which can be combined with themed colour accents.

OLD GREY OAK MATT | PALAZZO | PAL 1346

With uncompromised depth and warmth, these oak matt floors embrace a cosiness like a favourite winter coat. Dazzling with both light and dark furnishings, this exotic grey hue in the Palazzo range recreates old charm in a contemporary space.

LIMED GREY OAK | PALAZZO | PAL 1345

Palatial by name, polished by nature - the Limed Grey Oak creates an alluring presence that demands to be noticed. Its stylish wood structure makes this flooring classic and charming at the same time.

CARAMEL OAK OILED | IMPERIO | IMP 1625

These oiled engineered wood floors call to mind old cottages and castles, with a flooring that has turned a lovely brown courtesy of the crackling fireplace, and owing their authentic charm, large knots and cracks included, to a series of manufacturing techniques that serve to highlight the authentic character of the floor.

ESPRESSO BLEND OAK OILED | VARIANO | VAR 1632

The various finishes, lengths and widths of the wooden plank do the natural, authentic look and the mysterious dark shades of this warm, dark brown floor full justice. The oiled finish creates a cosy atmosphere in your home interior!

COUNTRY

Obtain a cosy country look by combining natural materials such as wood, stone, linen fabrics etc. Use soft tones like beige, brown and grey, and complete the look with other muted colours.

VINTAGE OAK MATT | PALAZZO | PAL 1344

The wide luscious boards in the Vintage Oak Matt give any room a feeling of light and space, without compromising an ambience. The extraordinary detail and authentic modern charm is copied with its purity and exquisite quality.

NATURAL HERITAGE OAK OILED | IMPERIO | IMP 1624

The Imperio Natural Heritage Oak Oiled also uses European white oak as its base but has been finished with a natural oil. The combination of large knots with a gentle brushing and subtle joints around the planks vouch for this floor doing an excellent job inside warm and cosy home interiors.

NOUGAT OAK OILED | IMPERIO | IMP 1626

The Imperio Nougat Oak Oiled floor planks with their rustic beauty and long wide boards stand out, with its hand-sanded knots, the heavy brushing it has been given and the dark coloured knots and cracks.

CHAMPAGNE BRUT OAK OILED | VARIANO | VAR 1630

Variano Champagne Brut Oak Oiled brings a natural, warm feel and an extra matt aspect, same as an untreated, rough oak floor. The neutral colour is timeless and, combined with the design and the texture, makes for a fascinating whole.

CLASSIC

Harmony is the key to a successful classic interior style. Choose dark, light or warm natural colours. Classic furniture, accessories and elegant panelling and moulding details complete the look.

**QUICK-STEP®
FLOOR ADVISOR**

Mocca tip: Not sure about the effect of a dark floor in combination with your furniture and walls?

Visit www.quick-step.com.au and try out our online floor advisor! Upload your interior, select your favourite floor and determine which floor fits best.

PURE OAK MATT | PALAZZO | PAL 1341

ROYAL GREY OAK OILED | VARIANO | VAR 1631

It is the warm greys with a tint of brown especially, the so-called greiges, that are currently extremely popular in home interiors. Greige combines well with bright colours, but every bit as well with pastel colours, which are back in the limelight courtesy of the retro and vintage design revival.

PURE OAK MATT | IMPERIO | IMP 1623

The Imperio Pure Oak Matt floor has been treated with a matt laquer to give an extra protection coat, and coloured with a very light white pigment. This lends the engineered wood floor a softer, whiter look instead of the somewhat yellow tint of a natural treated oak.

DISCOVER OUR WOOD FLOOR COLLECTION

SIZES, WOOD SPECIES & FINISHING

- 26 Plank sizes
- 28 Types of wood, grading, structures and finishing

OVERVIEW RANGE

30 Overview range

PLANK SIZES

The Quick-Step collection comes in a variety of sizes and formats to suit all tastes. From vivid patterns to king size planks, we have the perfect fit, no matter what your interior design is. Just take a look at the range below and you're guaranteed to find the perfect floor for you.

SINGLE PLANK

**QUICK-STEP
IMPERIO**

Extra long and extra wide planks with an authentic look.

**QUICK-STEP
PALAZZO**

Long wide oak plank

PATTERN PLANK

**QUICK-STEP
VARIANO**

Unique planks with a reclaimed look and pattern.

NOTE:

1 strip boards feature nested lengths. At Quick-Step, we know that when you want a stunning one strip floor, you don't want it full of short pieces (called nested lengths), that's why we minimise our nested length ratio lower than almost every other brand... to give you the look you deserve.

IMPORTANT TIMBER FACTS

Timber is a living product. If not properly manufactured, prepared, treated or installed, timber flooring can warp, twist or delaminate and generally behave in a manner quite contrary to your expectations.

IT'S ONLY NATURAL...

Remember, Timber is a natural product, so gum veins, knots and other natural are often present, adding to the natural beauty of your timber floor. Colour variation is also to be expected and distinguishes your Quick-Step Timber as natural timber, not a manufactured imitation. While Quick-Step Timber is certainly resistant to day-to-day life in both residential or commercial applications, Quick-Step Timber is genuine timber flooring therefore proper care and maintenance is required to avoid unnecessary marking and scratching. Also remember that there is always some slight noise associated with any wood flooring systems, this is a normal part of wood flooring and may vary from time to time with the climate. More tips and tricks on page 40.

IT IS ESSENTIAL TO CREATE A HABITABLE AND TIMBER FRIENDLY INDOOR ENVIRONMENT

Timber floors should not be installed more than two weeks prior to a new dwelling being occupied and curtains, blinds and/or window tinting being installed so that the floor will experience normal 'interior' conditions. Otherwise, extreme indoor conditions may lead to cracking, shrinking, cupping or other distortion of the wood flooring. Such damage resulting from extreme conditions is not covered by warranty.

LIFETIME WARRANTY

DOMESTIC USE

LIFETIME UNIQUE MULTIPLY WARRANTY

DOMESTIC USE

Our manufacturing methods are regarded as among the finest in the world. That's why all Quick-Step Timber is sold with a Lifetime Structural Warranty and a Lifetime Domestic Warranty. It's your assurance of a naturally beautiful floor for many, many years.

Quick-Step Timber Lifetime Structural Warranty covers warping, twisting and delamination of any board in your floor as a result of manufacturing fault.

With the superior S.R.T. Coating, Quick-Step Timber is sold with a Lifetime Warranty covering wear through of the finished surface to raw timber.

Of course, both warranties offered are conditional on your floor being installed and maintained in accordance with our instructions. Full terms and conditions of all warranties, installation and maintenance instructions should be viewed at www.quick-step.com.au or requested from your local Quick-Step Retailer.

TYPES OF WOOD, GRADING, STRUCTURES AND FINISHING

TYPES OF WOOD

The wood species you choose determines the colour, surface texture and feel of your floor - and by consequence the whole atmosphere of your interior.

Oak

Oak is a popular hardwood from North America or Europe. It ranges in colour from pale straw to mid brown and offers distinctive and desirable grain patterns.

TYPES OF GRADING

Each tree is unique, and different parts of the same tree produce different surface textures and appearances. We have a unique grading system that is easy to understand and transparent. Our floors are sorted into different categories. This is to give you a better idea of how your floor will look.

Nature

Wood with knots. Variation in colour and structure allowed.

Marquant

Wood with large knots. Lively variation in colour and structure.

Character

Wood with large dark filled knots and cracks. Lively variation in colour and structure with a rustic appearance.

COLOUR	Natural colour 	Lively variation 	Lively variation 
SAPWOOD	Stained products: allowed Non-stained products: not allowed	Stained products: allowed Non-stained products: not allowed	Allowed
KNOTS	Max. 20 mm 	Max. 50 mm* 	Max. 80 mm 
CRACKS	Not allowed 	Not allowed 	

* PAL1344-PAL1345-PAL1346 max. 80mm

TYPES OF STRUCTURES

Brushed **Deep Brushed**

By brushing the surface of a wood plank the natural grain structure is accentuated. Some of our floors even have a deep brushing to create an extra authentic feel.

Saw cut

The random marks of the sawn surface show off the craftsmanship and character of the wood planks.

Timeworn

Each plank of a timeworn wood floor has a particularly authentic perspective and sloping aged edges.

Reclaimed look and sunken knots

On some of our floors in the Imperio, Palazzo and Variano ranges, the knots are not fully filled, so that you can feel the authentic character of your floor even more. Moreover, our Variano floors have a reclaimed look, which means that they show sawcuts, height differences and gaps.

TYPES OF FINISHING

OILED

Oiled

- 2 layers of high quality oil
- Brings out the authenticity of real wood
- Gives an extra matt look
- Ages gracefully
- Allows fixing of micro-scratches by applying Quick-Step Oil Care
- Can be renewed and repaired with Quick-Step maintenance oil
- Prefinished in the factory

LACQUERED

Oiled/lacquered finishing

3.2mm face layer

Hevea core

Veneer backing

Matt

Silk

Satin

- 7 layers of protective lacquer
- Highly scratch- and wear-resistant compared to other lacquered wood floors
- Dirt-repellent, the result is an easy to clean wood floor
- Enlarges the resistance to water and household chemicals
- Prefinished in the factory

IMPORTANT TIMBER FACTS

Remember wood flooring is not colour fast. Whenever samples or flooring are exposed to natural light, they will change colour. This is a natural part of wood.

43 Matching accessories overview

THE RIGHT UNDERFLOOR PREPARATION

Whether you opt for a glued down or a floating installation, Quick-Step has the perfect solution.

FLOATING

AN UNDERLAY IS NOT AN IDLE LUXURY

► PERMANENTLY SOUND-ABSORBING

Quick-Step underlays are top quality and maintain their initial thickness over the years. Which means they will continue to dampen sounds such as the tapping of high heels. Combi-Lay sets the industry benchmark as quality underlay.

► IDEAL FOR UNICLIC® MULTIFIT

The smooth surface of the underlays prevents parts of the underlay from getting stuck in between the Uniclic® tongue and groove during installation. Moreover all Quick-Step underlays offer a stable base protecting the Uniclic® Multifit system.

► 2 IN 1: PROTECTS AGAINST DAMP TOO

A Quick-Step underlay will reduce preparation time for the installation of your floor by half. The damp-proof and moisture-resistant membrane (DPM) with an adhesive strip has already been integrated into the levelling underlay. This will save you a lot of time and effort.

► SUITABLE FOR FLOOR HEATING

All Quick-Step underlays are suitable atop floor heating systems. Check the website for more information or ask your retailer for advice.

► QUICK-STEP® COMBI-LAY STANDARD

Combi-Lay Standard is no normal underlay. The dense, closed cell polyolefin foam provides excellent support, with good reduction of both reflected and impact noise.

► QUIET-STEP® COMBI-LAY

Quiet-Step Combi-Lay is the first choice where a quiet step sound and maximum reduction in multi-storey noise is required. This high density underlay has no match in the market when it comes to reducing foot fall noise, with a reduction of up to 30% over standard underlays.

GLUED DOWN

Quick-Step Timber can also be directly adhered to a well prepared sub floor. Whilst direct sticking wood flooring has some advantages (reduction of foot sound), there are also disadvantages that need to be considered. More information can be obtained at your local Quick-Step dealer.

YOUR QUICK•STEP® FLOOR DESERVES A PERFECT FINISH

WHY QUICK•STEP® ACCESSORIES

Never before has such a comprehensive solution been offered for finishing of a wood floor collection in Australia. From the stairs to the thresholds, Quick-Step offers the perfect profile in real timber for all applications. The matching texture, colour and gloss level is used on every profile for that seamless and professional finish.

SCOTIA

No need to remove existing skirting boards, just cover the expansion joint with this handy solution.

PROFILES

The patented Incizo is a 5 in 1 profile for all applications including stairs. See page 40 for more details.

TIP Finish your floor perfectly with Quick-Step's veneered Scotia.

INSTALL YOUR FLOOR WITHOUT HASSLE

EASY CLICK SYSTEM

Installing a Quick-Step Timber floor is simple thanks to the patented world-famous Uniclic® Multifit click system.

This system is highly user-friendly, quicker to install and a lot more solid than other systems. A Quick-Step floor makes installing easy, even in the tightest corners or under doors.

HOW DOES IT WORK?

Whether you opt for a floating or glued down installation, we offer a variety of different installation methods. Just choose the one that suits you best.

► METHOD 1: DROP DOWN

To install a large area fast & easily.

Click the panel in the long side, slide your floorboard towards each other on the short side and press down.

► METHOD 2: ANGLING

To install the first row of planks.

Click the panels first on the short side and click the long sides together.

► METHOD 3: HORIZONTAL INSERTION

To install in difficult areas.

In contrast to many other brands, Quick-Step Timber planks can also be inserted horizontally. This is very important when installing the last row of planks, or in places where it is difficult or even impossible to tilt them (under door frames or radiators, for example).

IMPORTANT NOTE:

Quick-Step Multifit is generally installed without any need for hammer and block, however, tapping on the end of panels may sometimes be necessary to fit into profiles or under door jams. Care should be taken when tapping up end joints, to not make contact with the plastic tongue. Damage to the tongue may result in poor joint strength and possible end joint variation.

QUICK-STEP® ACCESSORIES HELP MAKE YOUR FLOOR INSTALLATION EASY

► QUICK-STEP® INSTALLATION KIT

Cut down the risk of damaging your Quick-Step floor with our handy installation kit.

Contents: Quick-Step tapping block, metal crowbar, adjustable spacers.

TIP Check out the installation video on our website www.quick-step.com.au

QSTOOL

QSTOOLSAW

► QUICK-STEP® HAND SAW

This super handy Quick-Step Hand Saw will help you to saw door frames correctly, so that your floor fits perfectly underneath. Features an adjustable handle and a high-quality steel blade.

TIP Place a floor panel and underlay next to the door frame to determine the saw height.

FINISHING PROFILE FOR FLOOR AND STAIRS

QUICK-STEP INCIZO®: 5 QUESTIONS, 1 ANSWER

Quick-Step's patented Incizo® profile is a multifunctional finishing tool. One and the same profile can be used for all the finishes of your floor and stairs, in the matching colour. Simply cut the Incizo® basic profile to the shape required using the supplied splitter.

1. HOW CAN I JOIN TWO FLOORS OF THE SAME HEIGHT?

Use the Incizo® profile cut as an expansion profile.

2. HOW CAN I SOLVE VARIATIONS IN HEIGHT FROM ONE FLOOR TO ANOTHER?

Use the Incizo® profile cut as an adaptor/ ramp profile.

3. HOW DO I FINISH MY FLOOR ALONG A WALL OR A WINDOW?

Use the Incizo® profile cut as an end profile.

4. HOW CAN I CONNECT MY FLOOR TO A CARPET, AND HAVE A BEAUTIFUL FINISH?

Use the Incizo® profile cut as a transition profile.

5. WHAT ABOUT THE FINISHING OF MY STAIRS?

You can cover your stairs or steps with Quick-Step planks and finish in the style of your choice with the Incizo® profile as a stair nose.

HOW TO USE INCIZO® ON YOUR STAIRS?

If you have even a basic knowledge of DIY, you can easily finish or renovate your stairs yourself.

The Quick-Step Incizo® profile gives you a whole range of solutions for your stairs.

1. Glue the plank to the riser. The spacers ensure that sufficient space is left underneath to fit in the step.

2. Glue and screw the aluminium sub-profile onto the step.

3. Apply glue to the sub-profile and the step. Spread the glue out across the sub-profile.

4. Place a plank on the step against the rising edge of the sub-profile.

5. Apply glue to both sides of the Incizo® base.

6. Press the Incizo® profile onto the sub-profile.

TIP Ideal to finish the top of the stairs.

► INCIZO® PROFILE QSWINCP(-)

Dimensions: 215 cm x 5.4 cm x 1.7 cm

Contents: 1 Incizo®, 1 splitter, 1 plastic rail, screws and plugs

► INCIZO® ALUMINIUM SUB-PROFILE FOR STAIRS

NEWINCPBASE(-)

Dimensions: 215 cm x 1.2 cm x 7.35 cm

KEEP YOUR FLOOR IN TOP CONDITION

QUICK-STEP® CLEAN: EVERYDAY MAINTENANCE

QSCLEANING750

QSCLEANINGMOP

► QUICK-STEP® CLEANING KIT (QSCLEANINGKIT)

All Quick-Step floors are low maintenance. Keep them clean with the practical and easy to use Quick-Step Cleaning Kit. You can use the mop dry or slightly moist.

Contents: mop holder, washable microfiber mop, Quick-Step Cleaning product 750ml

All Quick-Step cleaning products are specifically developed for Quick-Step floors. They clean the floor surface thoroughly and maintain the original look of your floor. No residual layers of cleaning product are left behind.

Also available separately:

- Quick-Step Cleaning product 750ml QSCLEANING750
- Quick-Step Cleaning mop QSCLEANINGMOP

QUICK-STEP® OIL CARE: PERIODICAL USE

QSCARE750

If you take care of your Quick-Step oiled floor from the start, it will age beautifully and you will delay the need to re-oil. Compare this to moisturising your hands; you wash them regularly, but by doing so your hands become dry. A good moisturiser protects your hands. The Quick-Step Oil Care does the same with your oiled floor: it protects and maintains your floor, preventing it from drying out and looking dull, restoring it to its original beauty.

- Quick-Step Oil Care QSCARE750

Contents: 750 ml

QUICK-STEP® MAINTENANCE OIL: FOR INTENSIVE CARE AND REPAIR

QSWMAINTOILW
QSWMAINTOILN

For damaged floors and for yearly maintenance, Quick-Step offers the Quick-Step Maintenance Oil. Available in white and transparent.

- Quick-Step Maintenance Oil white QSWMAINTOILW
- Quick-Step Maintenance Oil transparent QSWMAINTOILN

Contents: 1 L (=75 m²)

TIP Check our online overview to see which maintenance oil fits your oiled Timber floor: www.quick-step.com.au

OILED PARQUET FLOORS: THE CLEANING CYCLE

REPAIR

► QUICK-STEP® REPAIR KIT (QSREPAIR)

Light damage can easily be repaired in the original colour with the Quick-Step Repair Kit. Simply recreate the colour of your damaged planks caused by, for example scissors, with one of the seven wax pieces selected to cover all Quick-Step colours.

Contents: melting knife, cleaning comb, 7 wax blocks, sanding pad

TIP

Check the specific colour combination for your floor on www.quick-step.com.au
